Property Description

Casa Cinco Vistas is a one-of-a-kind villa perched high on the southern headland of one of Costa Rica's most stunning beaches. The property has some of the best views in Guanacaste! You will see incredible ocean and mountain views from every angle on the property, as well as gorgeous views of the brand-new Flamingo Marina and some of the most magical sunrises and sunsets on the planet! The exclusive location provides sweeping panoramic views in every direction while also providing a sense of complete privacy. The best part is that it is only a 7-minute walk down the hill to the mile-long white sand and tropical blue waters of Playa Flamingo. The massive 5500-square-foot Spanish colonial home was designed to look like three round pavilions stepping down the hillside to a large free-form, infinity-edge pool with a palm tree island and a pool bar with five pool stools. Floor-to-ceiling windows in the living, dining and family rooms draw your attention to the breathtaking view of lushly forested mountains jutting out into the bright blue Pacific Ocean dotted with islands.
