The first floor features two bedrooms, an office, and bathroom, and is a fully functioning private home. Floors two and three are a separate home with two bedrooms and baths and large covered decks with ocean and jungle wildlife views. Just completed is a gorgeous studio bungalow with over 85 sq. meters of living space. The homes provide a substantial rental income with the option of renting to three different groups simultaneously. This property is home to over 250 fruit trees of more than a dozen different varieties and it comes with it's own permitted well, in addition to water from the local asada.
