Property Description

There are homes and properties whose unique settings, views, designs, and amenities stand out amongst all others in a given market. Casa Bendecida is quite simply a one of a kind estate unlike any other property not only in the region but in all of Costa Rica. Nestled on a bluff with 100 miles of white water coastal ocean views you are simply overwhelmed with the power and beauty of the panoramas of Hills of Portalon and privacy when arriving to the property. The more than 5 acres of pristine ridgeline also offers another incredibly rare attribute which is an abundance of flat usable land, without sacrificing views and elevation. The main residence is a sprawling three bedroom estate home that is built entirely on one level making it ideal for investors who want the simplicity of a lifestyle without stairs. The modern tropical design focuses on bringing natural light and cool breezes into the home to allow for a seamless blend of interior and exterior living.
