Property Description

Welcome to Dominicalito — a rare development opportunity in one of Costa Rica's most supply-constrained and naturally captivating coastal communities. Positioned along a protected crescent bay just minutes from the vibrant energy of Dominical, this property offers the ideal blend of privacy, accessibility, and long-term investment potential. As the Southern Zone continues to experience steady growth and international demand, buildable land within walking distance to a swimmable, protected beach has become increasingly scarce. Dominicalito stands apart for its intimate scale, established residential character, and limited remaining inventory — making well-located parcels like this exceptionally valuable from both a lifestyle and development perspective. The property's natural topography creates multiple potential building platforms, offering flexibility for a range of development concepts.
