Property Description

Almost 1 acre with panoramic Pacific views, prepared building site, and flexible mixed-use zoning just minutes from the coast. Few things compare to watching the sun set over the Pacific from your own hillside in the Costa Rican jungle. This beautiful 3,964 m² (0.98 acre) property in Ojochal offers exactly that — sweeping ocean and sunset views from the entire prepared building site, surrounded by lush tropical forest and cooled by refreshing ocean breezes. The lot already features a ready-to-build homesite, allowing future owners to begin designing and building with minimal additional site work. From the building area, the landscape opens toward the Pacific Ocean, creating the perfect setting for a private residence, vacation home, or boutique hospitality concept that takes full advantage of the dramatic sunsets and peaceful surroundings. Infrastructure is already in place to simplify development.
