Property Description

Casa del Viento is a private, nature-immersed villa perched above the jungle canopy with sweeping views of the Pacific Ocean. Thoughtfully designed by award-winning QBO3 Arquitectos to feel peaceful, airy, and rooted in its surroundings, the home blends understated luxury with the soul of coastal Costa Rica. Clean coastal textures, warm earthy tones, and a seamless indoor-outdoor flow shape every room. The open-concept living area opens onto expansive terraces and an infinity pool that appears to spill into the rainforest below. Three bright, serene bedrooms on the second floor are designed as private sanctuaries for rest, renewal, and waking up to soft golden light filtering through the trees. Set across two thoughtfully composed floors, the main level unfolds as a single, seamless social space — an open-concept kitchen and living area that opens directly onto the pool deck, with the jungle literally at your feet.
