## Property Description

The only apartment available in Solaris with a private terrace of this scale, Lumina Terrace is exactly as extraordinary as it sounds. Set in the mountains between Escazú and Santa Ana, Costa Rica, this singular residence brings together privacy, volume, open air living, and unobstructed views across the Central Valley, all within one of the west side of San José's most exclusive residential communities. Designed to blur the line between interior comfort and life under the open sky, the residence moves with ease from one space to the next. A generous living area, a dedicated media lounge, and a show stopping double island kitchen create a home that feels both polished and highly livable. The kitchen is finished in stone and precision cabinetry, fully equipped with a complete suite of brand new KitchenAid appliances, and designed for the kind of daily rhythm where cooking becomes part of the experience.
