Property Description

Surrounded by the untouched nature of southern Costa Rica, a unique real estate project is taking shape—created for families seeking peace, nature, and a more aligned way of living. Aurora Alma Community offers more than just land. It is a place where lifestyle, nature, and community come together in a meaningful way. The Properties • Lot sizes starting from approximately 2,000 m² and larger • Prices starting from USD 30,000, depending on size and location • Quiet, natural surroundings with a high quality of life • Fertile soil – ideal for permaculture & self-sufficiency • Selected lots with creeks, natural features, and open views Location & Infrastructure • Approx. 25 minutes to San Isidro del General • Less than 1 hour to the beaches of Uvita and Ojochal • Pleasant climate year-round • Good access, with electricity and water available depending on the lot The Concept This project combines private ownership with shared value: • Planned community areas for shared use • Access to a natural river within the community • Optional designated areas for keeping animals, if desired • Integration of permaculture and sustainable living concepts • Space for families, nature, and animals Legal & Process • Purchase is secured and handled through a notary • Clear and transparent transaction structure • Guidance with administrative and local processes available Special Feature A place for families who don't just want to live somewhere—but want to live with intention.
