Property Description

Located minutes from Downtown Grecia and minutes from the Pan Am highway, this is a great little oasis for a weary traveler. Or it could be the perfect medical tourism! Or it could be a retreat center! The possibilities are endless with this versatile property. Let's start with the 9 furnished cabins, each has its own little porch and bathroom. All are fully furnished and ready to be rented out. They all focus on the pretty Spanish-style fountain in the middle of the gardens. From the cabins, you can choose to meander down to the waterfall through the lush tropical gardens or hang out at the pool area, where there is a communal kitchen and covered rancho area. There is a storage area here as well as a tool room. The pool area features a sunken bar area and a swim-up bar! Your guests will love lounging in the pool, drinking tropical drinks as toucans and parrots fly over. The communal kitchen could easily be converted to a chef's dream kitchen, where you can whip up tasty and healthy food for your guests.
