Property Description

Perched at one of the highest points of Finca Los Pargos, this architectural residence is a sculptural celebration of light, landscape, and the raw beauty of Costa Rica. Casa Los Roques is oriented toward the west, and captures uninterrupted views of the Pacific Ocean and the daily drama of sunset. Wake up to the sound of howler monkeys and birds that visit you daily. Enjoy beautiful landscaping with fruit trees, colorful flowers that attract butterflies and colibris and the exotic fragrance of two Ylang Ylang trees on the property. Casa Los Roques was designed by renowned architect Juan Ignacio Aranguren, an architect with over 25 years of experience in residential design and a long-standing collaborator of the late Zaha Hadid, this home blends fluid forms, natural materials (local wood, coralina), and dramatic Pacific views into an extraordinary living experience. A Dramatic Sense of Arrival The moment you approach the property, the architecture begins to unfold.
