Property Type: Land • Lot Size: 109265 Square metres •

- Status: Available

Property Description

Located in the village of San Francisco de Rivas, this 10.4-hectare property offers an extensive amount of buildable land paired with remarkable river frontage. Its position just off the main road provides easy access, yet the setting remains private, with the sound of the river anchoring the atmosphere. From here, the best of the Chirripó Valley is within quick reach. The trailhead to summit Costa Rica's highest peak is only minutes away, as are Cloudbridge Nature Reserve, Talamanca Nature Reserve, and many local attractions, cafés, and community spaces. San Isidro El General lies about thirty minutes from the property, offering full services, markets, and conveniences, while Playa Dominical can be reached in roughly an hour and a half. With its combination of riverfront, accessibility, and quiet surroundings, this property offers a versatile setting for a residence, retreat project, or nature-centered escape in one of the valley's most connected locations.
