Property Type: Land • Lot Size: 153849 Square metres •

- Status: Available

Property Description

Located in the picturesque community of Bijagual de Carara, Turrubares, this 160,000 m² farm is a natural gem with enormous potential for various projects. Its surroundings combine fertile soils, native vegetation and a natural ravine, making it perfect for crops, livestock, reforestation or even sustainable tourism development. ? Key Property Features: ? Extension: 16 hectares of land with a varied topography that allows for multiple uses. ? Natural ravine: Water resource that runs through the farm, ideal for irrigation, supply or ecotourism projects. ? Native vegetation and secondary forest: An ecosystem that houses a great diversity of flora and fauna, providing natural shade and a fresh environment. ? High-quality soils: Suitable for agricultural production, high-yield crops and reforestation. ? Privileged location: Just a few minutes from Carara National Park, one of the most important ecological reserves in the country.
