

Land For Sale

📍 Golfito, Puntarenas

\$1,500,000

Reference: 1145633365

Property Type: Land • Lot Size: 90000 Square metres •

- Status: Available

Property Description

Discover one of Costa Rica's most pristine and breathtaking properties: a 90-hectare waterfront farm with private beach for sale in Golfito, located on the tranquil Golfo Dulce in southern Puntarenas. Accessible only by boat, this rare sanctuary combines 200 meters of untouched beachfront with lush primary rainforest, rivers, waterfalls, and extraordinary tropical wildlife. Nestled beside Piedras Blancas National Park, one of the most biodiverse regions in the world, the property offers a truly immersive jungle experience where dolphins, whales, monkeys, and scarlet macaws are part of daily life. The farm has been carefully restored into thriving rainforest, making it both a conservation jewel and an eco-investment opportunity. With 13 acres of titled land and 10 acres of maritime zone, it is ideally suited for eco-lodges, wellness retreats, glamping projects, or research centers. As Golfito's Marina Bahía Golfito expands with luxury services and retail, this area is quickly emerging as a lifestyle and tourism hub.
