Property Description

We present a beautiful 3.4-acre (13,800 m²) farm with fully usable land, located in a peaceful area surrounded by nature. The property borders a crystal-clear creek that runs throughout the land, forming a natural pool and a small natural jacuzzi. The surroundings are adorned with majestic laurel trees, tropical vegetation, and fruit trees, creating an ideal environment for relaxation, agriculture, or a private retreat. Thanks to Costa Rica's favorable climate and fertile soil, this land allows year-round food production with minimal effort. It offers the perfect space and conditions to develop gardens, raise farm animals, or even implement aquaculture projects. Access to the farm is completely private, with frontage on a paved road, making it easy to install a secure gate and ensuring convenience for entry. The property has all available public services: drinking water, electricity, high-speed internet, and cable TV, making it an excellent option for both residential and recreational use.
