Property Description

Iguana Villas #2 is a fully remodeled and furnished 2-bedroom condo in Playa Junquillal, Guanacaste, just two blocks from a serene, white sand beach, one of Costa Rica's most tranquil spots. Sitting within a community of ten villas, it offers spacious, modern living with high ceilings, an open floor plan, and high-quality upgrades, including tempered security glass, new fixtures, and a luxurious master bath with a 9-jet jacuzzi tub. The renovation enhanced the layout by adding a laundry/utility room and a walk-in closet, creating a sleek, functional space of approximately 1450 square feet, plus a large patio and terrace with sunset views. Located in a quiet community just a few blocks from paved roads, the villa provides easy access to lively Tamarindo and Liberia airport. The open living area, guest bedroom, and kitchen flow onto the spacious patio, which can be screened if desired.
