Property Description

When you take an extremely well-maintained road from Platanillo, you will reach the most beautiful, hidden secret in southern pacific Costa Rica. Tierras Morenas captured my heart as soon as I got out of the car. Beauty is any different. Whether it be the blue waters rushing by in multiple rivers in this area, or the stunning grassy, rolling hills with a green so rich no camera can do it justice. I truly believe in the next few years this valley will become very sought after. There is an ocean access road that gets you to Playa Linda, near Hatillo & Matapalo, in just 15 minutes! This road certainly needs 4x4 and is an adventure of its own. The feeling of true Pura Vida is all around you here. I love the classic farmers working with oxen & cowboys keeping things in order. Fresh breezes are consistent & are a welcome source of refreshment. These two, 2.5-acre pieces of earth can make a homesteading dream come true.
