Property Description

Tropical Bliss at Villa Real is a modern home designed to blend clean lines, warm wood textures, and refined finishes. Set on a gently sloping lot with an unusually flat garden, an uncommon find in Villa Real, this future residence will offer striking views of the Escazú mountains and evening skies. Construction is expected to begin in late 2025, with flexibility for custom finishes and interior details to suit your vision. Located on the west side of San José, this 5-bedroom residence offers exquisite indoor-outdoor integration and sophisticated spaces ideal for entertaining and everyday family life. The architectural style of Tropical Bliss leans modern, with a mix of contemporary lines, warm materials, and subtle contrast. The entry opens to a double-height foyer, where light and volume immediately define the space. The home's main social area unfolds in a spacious open-plan layout, connecting the living and dining rooms with the kitchen, which offers a functional central island.
