• Status: Available

Property Description

Do you dream of building your home or retirement house in a natural paradise where the local wildlife is part of your daily life? A truly privileged natural setting where tranquility, privacy, and a deep connection with nature blend perfectly. In fact, the name of Calle Lapas (Macaw Street) comes precisely from the fact that this property is located in a constant crossing zone for these beautiful birds. Sightings here are highly frequent; the macaws arrive every day, perch in the surrounding trees, and fill the landscape with life and color. Living here means having your own natural sanctuary right in your backyard. This 890 m² lot is the perfect place for those seeking a refuge of absolute peace without giving up urban conveniences, located just 10 minutes from Ciudad Quesada. It is the ideal setting to design the eco-friendly home of your dreams, with architecture that blends with and respects the surrounding nature.
