Property Description

*** PRICE REDUCED TO JUST \$0.85 PER SQ METER - AN AMAZINGLY LOW PRICE **** This 28.6 acres (11.56 hectare) property is located in the upscale residential neighborhood of Pacific Heights, in Playa Potrero. Instead of building your dream home on a small lot close to the road and right up next to your neighbors, this property allows you to select your home site as close to the road or as secluded as you would like to be. There are wonderful ocean views from a number of locations in the property. Your backyard? Acres of lush forested hills and the Zapotal Valley leading to the Pacific Ocean. Want to build a family compound of homes? There's plenty of room for that. Want horses on your property? No problem. Or maybe you just want complete privacy and to be surrounded by nature. Then, this is the ideal property for you. The markets and restaurants in the town of Potrero and the beaches at Potrero, Penca and Prieta are a short drive away.
