- River Views

Property Description

This unique, three bedroom, two bath contemporary home hovers above the treetops at canopy level with sweeping ocean views including Cano Island. This design perfectly suited for Costa Rican living includes three separate buildings connected by wooden decks. All three “pods” face the ocean with 4 panel glass sliders. Intimately integrated with all rooms and with both ocean and mountain views, is a very private pool with a cascading, sheer descent waterfall and iridescent LED pool lighting. Access to this home is via 2-wheel drive, which is a tremendous feature and greater benefit. The home sits on 5,504 square meters, has ocean and mountain views from all three buildings and another large building site with endless possibilities. In addition, the design of the home lends itself to expansion below where there is room for 2 additional large rooms. The Master bedroom “pod” is beautifully appointed with a contemporary designer, king sized bed and oversized shower with mountain views and double vessel sinks atop a stunning wood dresser with matching mirrors.
