Property Description

2 acres of riverside property, located in Uvita Costa Rica. Nearly all of the land is usable. The Rio Higuaron defines the north side of the property. Around the opposite side from the river is a year 'round stream. This property is a gardener's dream and will also serve well for multiple homes, villas or cabins. Its hard to choose which of the qualities of this property are its finest. This would depend on the buyer. It is located in a gorgeous area of several properties, all multi-acred. It is at the end of the road so there is no drive by traffic and the privacy level is high. The access is 2 wheel drive and is about 3 minutes off the highway and 6 minutes overall to the grocery store and Uvita's other conveniences. It's riverside setting as well as the ample shade make the property comfortable around the clock. Of course, if you feel you need to cool off, you can always go sit in the river.
