Property Description

This modern off-the-grid home is located in one of the most pristine and authentic Costa Rican mountain neighborhoods one would ask for, San Josecito and enjoys a full view over the Whale's Tail. Located on 3.33 acres of titled land, the home is of an open air concept, with the first floor holding the kitchen, indoor living area, a full bathroom and large storage bodega. The double doors open onto a spacious outdoor patio with wet bar. There is a small plunge pool which can also be heated to enjoy on those cooler evenings, as well as an outdoor shower and bathroom. Up the spiral staircase is the upstairs bedroom, which is currently one large open room with a full bathroom. This area is large enough to create 2 separate bedrooms or an office/bedroom space. The surrounding rainforest and ocean view is enjoyed easily through the double doors which open onto the wrap around deck. For true nature lovers, the roof retracts to open up the sky light for those who dream of sleeping under the stars while living in the Costa Rican rainforest.
