Property Description

Magnificent location!! Eight-unit condominium, all concrete construction, excellent views of the city. The house is located on the third floor, second habitable because the first is for parking. Spacious dining room that enjoys beautiful windows that expose the view of the city, has a closet that can well house a half bathroom for visitors. The kitchen is newly remodeled, it has a large central island with a Silestone quartz countertop that meets the performance of a breakfast nook. All the other kitchen cabinets are made of modern materials and countertops are also made of quartz, it has a very good size pantry and the kitchen is very well lit and ventilated. Adjacent we find the service area with the laundry room with space to hang clothes and closet and the utility room with a large closet and full bathroom. Next we find a room that serves as an office. Then in the hallway we find the rooms, three of very good size with their respective closet, all have large windows that provide excellent natural lighting and ventilation, these rooms share a bathroom which has been recently remodeled with marble floors.
