Property Description

Commercial lot with high visibility on Highway 243, the main and only paved highway between San Isidro de El General and the Costa Ballena. There is a newly constructed building on the property of almost 2,400 square feet of floor space with two bathrooms. The building is a metal structure, with concrete floor, first quality materials and security glass. There is ample parking out front and to the side of the building. This is a good opportunity for investment as this space could easily be rented out commercially long-term. Alternatively, it is a prime location for the new owner to start a business of some sort. Floor plans for the building are available upon inquiry.
