## Property Description

Calling all nature lovers wanting to be immersed in a peaceful forest setting with complete privacy; while still close enough to all the amenities, and only 15 minutes from the beach at Playa Dominical! This property is a true Costa Rica tropical experience located in Lagunas and nestled in the rain forest with a profusion of wildlife viewed daily. Plus numerous fruit trees already planted. The current owners are both conservationists who have lived and traveled all over the world; yet chose this location for its natural beauty, abundant biodiversity, climate, and proximity to amenities while offering complete seclusion and privacy. The Main House As you approach the main house along a gated driveway, you pass through lush green forest. After entering the front door under vaulted ceilings built with a variety of tropical woods like teak, oak, corteza, and cristobal, you are then faced with an open floor plan living room, dining room, and kitchen, and you've arrived...! The kitchen area has plenty of counter space and an island for preparing a variety of exotic meals with fresh local produce.
